

LED LIGHT KITS

MODULAR AND TRAFFIC LIGHTS

BEA's LED MODULAR LIGHT KITS and LED SIGNAL TRAFFIC LIGHTS KITS are part of a portfolio of warning indication products, including BEA activation, safety, and presence sensors. The signal lights integrate seamlessly into industrial automation and vehicle flow management applications. Both light kits are available in a red / green color configuration.

These light kits come with BEA's BR3-X logic module, associated brackets, and have options to be ordered with or without a power supply for your application needs.

MODULAR RED/GREEN SIGNAL LIGHT KIT

- UL Listed and IP65 rated to meet the needs of any application
- Can be programmed to pulse at a rate of 1.5 or 3 times per second or remain steady
- Base unit and bracket are designed for a variety of installation
- BR3-X offers 13 programmable logic functions and two-button programming for simple setup
- *(2) LED Signal Modular Lights*
- *(2) BR3-X Logic Modules*
- *(2) 10LIGHTBRACKET-TL70*

10SLKRGMPS

MODULAR RED/GREEN SIGNAL LIGHT KIT WITH POWER SUPPLY

- UL Listed and IP65 rated to meet the needs of any application
- BR3-X offers 13 programmable logic functions and two-button programming for simple setup
- Power supply converts electric current from a source to the appropriate voltage, current, and frequency to power a load
- *(2) LED Signal Modular Lights*
- *(2) BR3-X Logic Modules*
- *(2) 10LIGHTBRACKET-TL70*
- *(1) 10PS12-24 Power Supply*

10SLKRGT

TRAFFIC STYLE RED/GREEN SIGNAL LIGHT KIT

- IP65 rated to ensure performance in industrial environments
- Intense levels of light output (57 lumens for green, 20 lumens for red)
- Red and green indicators deliver immediate visual guidance for traffic flow optimization and safety
- BR3-X offers 13 programmable logic functions and two-button programming for simple setup
- *(2) LED Signal Traffic Lights*
- *(2) BR3-X Logic Modules*

10SLKRGTPS

TRAFFIC STYLE RED/GREEN SIGNAL LIGHT KIT WITH POWER SUPPLY

- IP65 rated to ensure performance in industrial environments
- BR3-X offers 13 programmable logic functions and two-button programming for simple setup
- Power supply converts electric current from a source to the appropriate voltage, current, and frequency to power a load
- *(2) LED Signal Traffic Lights*
- *(2) BR3-X Logic Modules*
- *(1) 10PS12-24 Power Supply*
