

TL70 Modular Tower Light

Datasheet

Banner's TL70 Tower Light is a 70 mm, modular LED indicator with extremely bright and uniform light. The modularity gives the user flexibility to customize tower lights as needed and change positions in the field. The TL70 is also available preassembled for easy installation.

- Light segments have user-selectable solid ON or flashing
- Up to five colors plus audible in one device
- Rugged, water-resistant IP65 housing with UV-stabilized material
- Bright, uniform indicator segments appear gray when off to eliminate false indication from ambient light
- Several connection options to choose from including M12/Euro-style quick disconnect, cabled, and terminal-wired

Select the 5-pin base for tower light configurations of up to 4 modules. Select the 8-pin base for tower light configurations of up to 6 modules.

- Example base model number: B-TL70-Q5
- Example light segment model number: SG-TL70-G
- Example audible segment model number: SG-TL70-A

TL70 Pre-Assembled Models

- Example pre-assembled model number: TL70GYRAQ.

Use a 5-pin cordset for 1 to 4 modules. Use a 8-pin cordset for 5 or 6 modules.

Configuring the Modules

Turn on the appropriate DIP switch to set the order of the components, counting up from the tower light's base.
