DESCRIPTION

BEA's **LZR®-FLATSCAN S** is a compact, single-curtain, LASER-based sensor designed for use on automatic industrial doors, gates, and barriers. Its precise technology ensures accurate object detection across the 18 ft x 18 ft field, making it capable of sensing people and vehicles, in both indoor and outdoor environments.

The **LZR®-FLATSCAN S** is housed in a robust, IP66 rated, metal enclosure. It can be installed in outdoor, industrial, and

other harsh environments.

Three visible LED spots provide accurate reference points that aid in adjusting the tilt angle. Parameter adjustments can be made with a BEA **UNIVERSAL REMOTE CONTROL**.

Inductive Loop Alternative

Virtual presence loop ideal for applications where cutting ground for loops is prohibited, impossible, or expensive

Versatile Sensor Orientation

Left or right, horizontal or vertical sensor mounting allows for convenient sensor installation based on application needs

Compact Design

Low-profile solution reduces risk of wear and tear in vehicle applications

Robust Construction

Metal enclosure and IP66 rating protects sensor in harsh environments

Reduce Unwanted Detections

Fog filter and additional immunity settings allow for field adjustments to mitigate environmental interferences

APPLICATIONS

Small, High-Performance Doors

Pharmaceutical Doors

Slide / Swing Gates

Barrier Arm
