

LZR®-FLATSCAN SW

NEXT GENERATION
SWING DOOR SAFETY SENSOR

COMPLETE DOOR LEAF COVERAGE

70 measurement
points to cover
the entire door
height and width

FEWER COMPONENTS

Hub-less system and
no door position
home switch
simplify setup

FAST INSTALLATION

One sensor fits any
door width (up to a
13' diagonal)

LEADING EDGE SAFETY

While in motion,
the detection zone
extends beyond the
leading edge of the
door

REDUCED UNCOVERED ZONE

Eliminates nuisance
detections while
maintaining complete
door coverage

FINGER DETECTION TECHNOLOGY™

100 additional
measurement
points for the
detection of small
objects

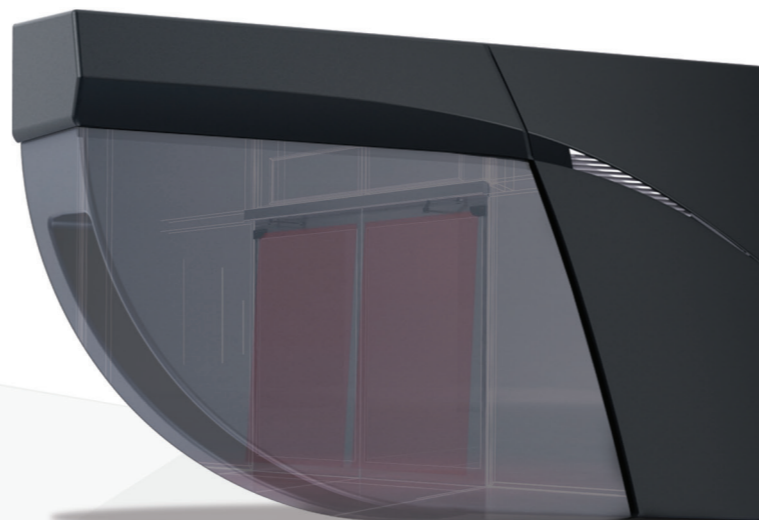

HAND GESTURE SETUP™

Indicate the width of
the door by tracing the
leading edge with your
hand
