

# JAMB PUSH PLATES

## STAINLESS STEEL ACTUATORS

### PRIMARY APPLICATIONS

### DESCRIPTION

BEA's jamb push plates improve overall door access, enhance accessibility for those with limited mobility or disabilities and seamlessly integrate with an automatic door's activation.

Jamb plates are a low profile alternative to regular size plates and can be mounted in areas with limited space available, such as on guide rails.

These push plates may be hard wired to the door operator or connected to BEA's line of wireless transmitters.

### FEATURES & BENEFITS

- 1/16 inch thick stainless steel for maximum durability
- Concealed fasteners to minimize vandalism
- Complete kits available including plates, mounting boxes and optional wireless devices for ease of ordering
- Various text, graphic and logo options available
- Compatible with both surface and flush mount boxes
- ADA-compliant push plates are available in a variety of popular faceplate graphic options
